

The Campus is 1 year old!

Description

The Scrapbook Campus came to life in July 2011 (although it came online in February 2011). Our first course was the Basic scrap course, which walks the student through all the basics and then the more advanced tools, functions and techniques to create digital projects.

Over time, it has expanded to include Element creation tutorials, live workshops, tips and tricks, and even a Scripting course. So now, it is time to celebrate our first anniversary, and we want to party with all of you; without the students and visitors, a Campus would be just a ghost town! And we are far from a ghost town, thanks to you.

Let's celebrate with a big draw

In order to thank you all for your support and participation, here is a "little" promotion for you. Whether you are a registered student to one of the courses, or a registered visitor to the Campus, or even just a passer by, you can **ALL** enter in this draw. There is almost \$400 worth of prizes to be won, so go for it!

What is there to win?

Of course, you want to know what's in it for you. Well, you will be pleased to hear this:

a complete set of **ALL** the workshop packages – Worth \$180

2nd prize:

a downloadable copy of **Paintshop Pro X4 Ultimate** – Worth \$99

3rd prize:

one course from the Campus (**Basic, Element or Scripting**) – Worth \$75-\$79

4th prize:

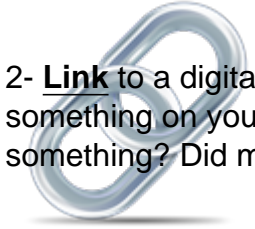

a \$25 gift certificate from Persnickety Prints

How do I enter?

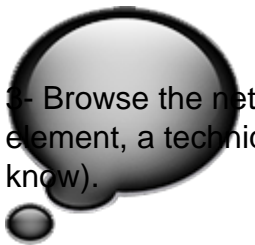

However you are related to the Campus (student or first time visitor), I am giving you several ways to enter. In fact, I am giving you **FOUR** possible entries (only one entry per method).

1- Just **post** something (anything) in the comments below, as long as your name/email is available so I can identify you. So, just by posting, you are entered in the draw (not too hard, is it?)

2- **Link** to a digital project you did (whether it is a scrapbook, a signature, a card, etc.) where you DID something on your own, or from scratch and tell us what it is that YOU did. Did you hand draw something? Did you make the rip on the edge? Did you create a seamless pattern for a paper?

3- Browse the net, galleries, forums or search in your own digital stash and give a **suggestion** for an element, a technique or a trick you would like to learn to do (or see me teach others, if you already know).

4- Check out the [Workshops section](#) and **tell me** which workshop has been the most useful to you (if you attended or viewed them) or which one you think would be the most useful to you (if you didn't attend or view them).

The final draw will occur on July 4th. Yeah, it is a Wednesday! It is the exact day when our first student joined the Campus (and that student is still with us now, one year later).

Is that all?

Of course not! We will also have other stuff for you, but we don't want to overwhelm you, do we? So stay tuned and you will see!

But in the mean time, go ahead and enter for the draw. Post in the comments below, link us, give us suggestions, and tell us about the workshops. We are waiting for you (and tell your friends too!)

(if you post on Twitter, remember to tag @scrapbookcampus and if you post on Facebook, tag us with @scrapbookcampus)
