Theme – Candies

### **Description**

This month, we have a very interesting theme that everyone loves. Our theme is about candies! I myself have a sweet tooth and I love everything from cakes, pastries, chocolates and all sorts of candies. Even grandma and grandpa enjoy these sugary treats every now and then. But it's the children above all else who enjoy it more than anything.

Candies can be a fun and unique theme for your layouts too. You can have a layout of your favorite candies, your favorite candy store and so much more. Let's have a look at some of layout inspirations for our March Theme – Candies.

## A candy store

Ever heard of the expression "like a kid in a candy store"? Well, sometimes, that is exactly how we can feel, and literally too!

Kids love candies, have you captured them eating their favorites?

You boys always gravitate toward what to me is the yuckiest candy. Instead of choosing a nice frozen Snickers bar or even a package of M and Ms you like to select something sugary yet sour. Sour Patch Kids, Lemonheads, Dip and Lick Popcifier all rank in your top three favorites. I guess there's no accounting for taste. July, 2016
