

Gold Star – Helen

Description

This time around, I am proud to introduce a Campus member that I actually met in real life.

Tell us a bit about you

Hello everyone, to begin my name is Helen. Married for forty-nine years, have three children and three handsome grandsons.

I do live about three hours from Carole and did get a chance to meet her in person, when she came to Moncton. It was such a pleasure to meet up with her and to learn what goes on in the background of keeping this Campus going. She really is a busy lady. Thank you for all your hard work.

How did you get to work with PSP?

I am a person who jumps from one project to another, the reason for this is because I have a hard time keeping my focus for long periods of time, I do have many hobbies which I work on, loom knit, sew and play in PaintShop Pro. I love playing with PaintShop Pro and do try to do the scrapbooking. That being said, I hope you understand even though I am not posting all the time I am still learning in the Campus.

How did you get to join the Campus?

I have been using PaintShop Pro off and on for quite some time, lurking in the background and playing in the program. I do so enjoy scanning old photos and retouching them up. Being a DIAMOND member is worth it to me because I do like trying to push myself to more in the program. Being a DIAMOND member does give you so much more to see and do in the Campus, I am sure you will learn so much more in using PaintShop Pro by joining and going through all the videos and tutorials. There really is so much more to learn.
