Theme – Emojis

Description

Emojis are a fun way to communicate with our loved ones, family, friends and other people. These ideograms and smileys can add a dash of personality to even the most boring conversations. They exist in various genres which include facial expressions, objects, animals and more. They are much like emoticons except that they are actual pictures and not just typographics.

Emojis have been around since the 1990s and since then, they have spread like a wildfire! Now they are widely used by people all over the globe. They just canâ??t get enough of them and we canâ??t blame them because, in all honesty, emojis are fun to use. They have been a great way to connect different cultures and bring a clearer expression between different races with just a click of our fingertips.

Whatever mood youâ??re in, weâ??re pretty sure thereâ??s an emoji to express that! Why not add that idea to your next scrapbooking project and show how you feel. Here are some wonderful layouts you can take inspiration from.

Scared

We go through scary situations in our lives now and then. Some of those memories are kept hidden at the back of our minds, however, there are a few that have been captured in a photograph. Make use of them by displaying them on a layout with an emoji that matches the photos perfectly!
