

Theme – Ice Cream

## Description

Ice cream is one of the most loved desserts by all of us, no matter what age group we belong to. We just can't think of anyone who won't feel delighted by this sweet frozen treat. In fact, many people find pleasure in eating ice cream especially when they feel a bit down because it helps improve their mood. Others simply enjoy it because it tastes good and it provides relief from the scorching heat of the day.

One of the best things that we like about ice cream is that it is very versatile. It can go well with just about anything! You can have it as a dessert, as a snack, or even as a meal. It is good to eat solo but it is best when shared with family or friends. It's perfect to serve during parties and gatherings or when you just feel like having one.

Do you love ice cream? Is it one of your childhood fantasies? Bring your memories to life! This cool theme will certainly give a fun twist to our designs.

One of the reasons we went to this mini golf course was the wait! A new owner came in last year. They were doing Groupon discounts and they were supposed to have really good waits and ice cream. Claire and Gabe got nice big mint chocolate chip cones (1 of 5 flavors) and Jeff got the wait
