

Scrapbooking Theme – Father's Day

Description

Father's Day has been celebrated for millennia, but it was not until the 20th century that it became a global holiday. The earliest known Father's Day celebration dates back to the ancient Romans, who celebrated a holiday called the "Feriae Dadastae" on March 15th. This holiday honored the god Jupiter, who was the father of all the gods. The Romans also celebrated a day called the "Festival of Concordia", which was a day when fathers and sons would reconcile.

Fatherhood encompasses an array of roles and responsibilities that contribute to the growth and well-being of children and families. It is a demanding but incredibly rewarding journey. Fathers serve as teachers, role models, and friends, imparting invaluable life lessons, providing emotional support, and fostering a sense of security for their family. It is indisputable that fathers contribute greatly in raising children alongside their wives. They play an essential role in maintaining a strong and stable family unit and should be celebrated for their efforts.

While material possessions are always nice, sometimes the best gifts are those that money can't buy. Expressing gratitude, spending quality time, extending thoughtful gestures and most especially family bonding are some great and lovely ideas on how you can celebrate this day and make it more memorable for them. Let's take a look at some astonishing layout designs that honor fathers and father figures. These layouts are sure to inspire and remind us of why we love our dads so much.

Father's Love

A father's love is often more subtle and understated than a mother's. Fathers tend to express their love for their children in different ways than mothers. They may not be as openly affectionate, but their actions speak volumes. A father's love is steady and reliable, a rock that the family can always count on. It is unconditional and can give a child the confidence and security to explore the world and grow into their own person.

Father and Child

Fatherhood is one of the most important, and yet challenging roles a man can take on in his life. While the joys and rewards of fatherhood are immeasurable, the role also comes with its own set of unique challenges and stresses. From sleepless nights and early morning feedings, to never-ending laundry and childcare expenses, fathers often have to sacrifice their own needs and wants in order to put their children first.

FATHER'S DAY TRADITION

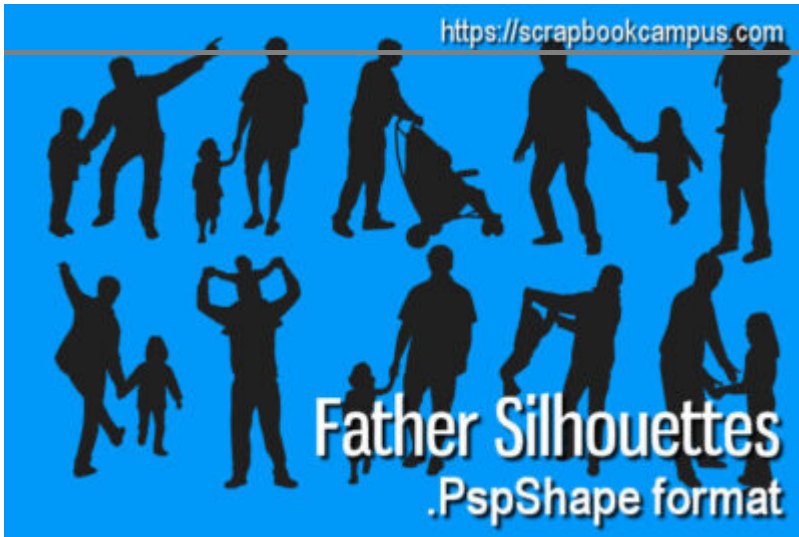

We have a Father's Day tradition. We like to head over to Grand Ole Creamery in St. Paul for their delicious ice cream in the handmade waffle cones. The hope is always that they'll have butterbricks, Scott's favorite ice cream, but sadly they didn't today. That's ok. We still enjoyed our delicious sweet treats as we celebrated Scott. Also, notice Scott's new t-shirt the kids got him? Isn't it great?!

BTW, we waited until July, when Lauren was home for the weekend, to go to Grand Ole Creamery to celebrate Father's Day. We didn't mind waiting. We wanted to go when we could all go together.
