

## Scrapbooking Theme – Shopping

### Description

Shopping has always been a part of our day-to-day activities. From buying foods and other necessities, to picking new outfits for ourselves, to purchasing gifts for our friends and loved ones, we had to do this kind of thing. While there are people who see it as a common practice, some find it as an excellent way to relieve some tension and stress. They believe it has therapeutic effects as they find themselves constantly entertained, excited and happy whenever they go shopping.

Typically, people visit some stores to buy the goods they need or want. But after so many years, a lot of things have changed and that includes the way we shop. Now that technology has become more advanced, sellers have gained the power to reach out to their potential customers in an easier way through online marketplaces and platforms. So aside from their physical stores, they can offer buyers another hassle-free shopping experience that does not require them to go out of their homes or offices.

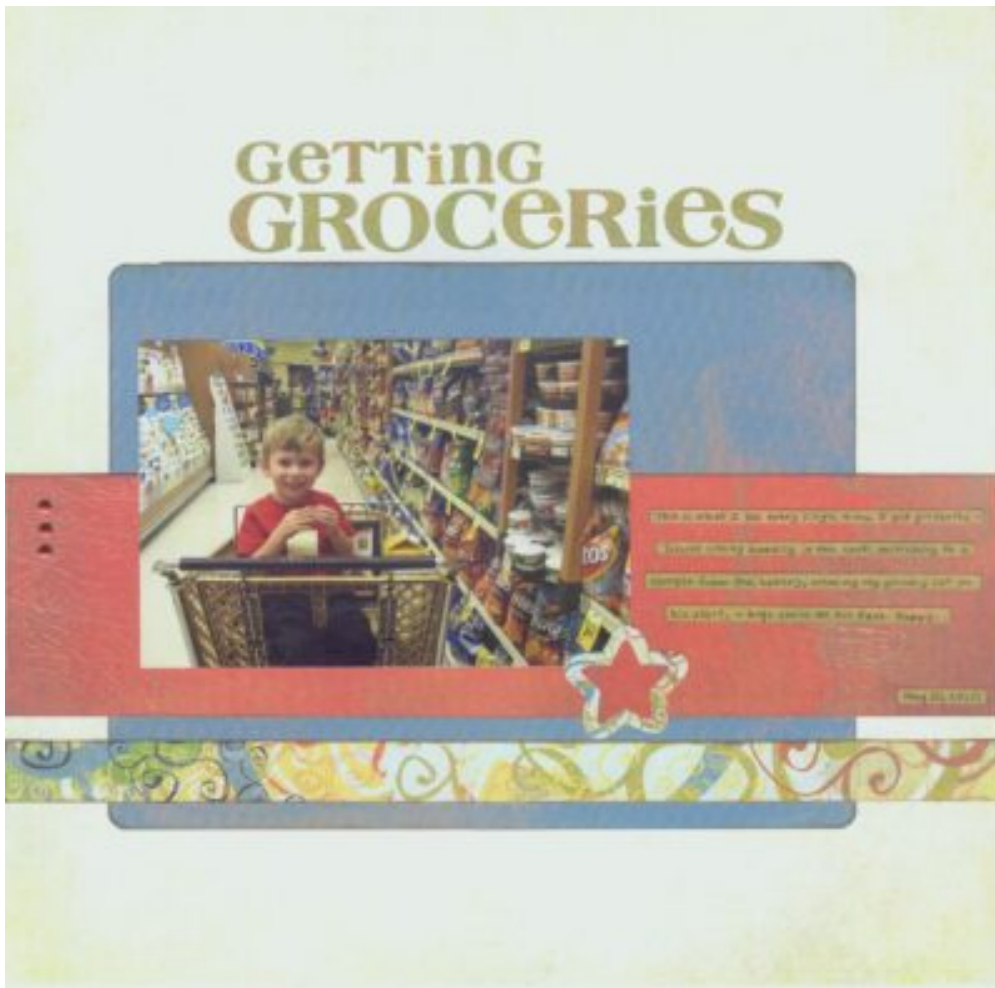

Are you one of those people who loves to shop? Do you prefer to go shopping alone or with somebody else? Are you a fan of purchasing products over the internet? Why not tell your shopaholic stories by creating a scrapbook layout just for them!

### Grocery Shopping

Each of us had to spare enough budget for grocery shopping. This is a very essential activity as we have to fill our fridge and pantries with foods and other basic needs in order to survive. Do you make a list of the items you have to buy in the grocery section? Or do you just randomly pick what you think you might need?

## Sales/Bargain Shopping

Who wouldn't love some discounts and sale offers? Some people wait for quite some time just to take advantage of these promos. It's way better to shop for some good stuff knowing you'll be able to get a bit of savings than usual. Bargain hunters can definitely relate to this!

In December 2010, Taylor and I went to Michigan for a shopping trip and to celebrate the New Year. We had so much fun and a ton of laughs. I'm so glad we did this for a few years after.

## Gift Shopping

Holiday season is finally here! And surely, you're already thinking of doing some gift shopping for the people dear to you. How do you usually shop for gifts? Do you shop with the person you want to buy gifts for or just go for the items you think they might like?

## Online Shopping

If you're one of those people who are too busy to pay a visit to your favorite stores or just don't seem to like the hassle, then online shopping must be your cup of tea. Well, we just can't blame you because it's definitely more convenient to visit a website, browse, pick the items you want, and pay for it. We can do all these in just a few clicks! Have you been enjoying doing online purchases lately?

If you want to create your own shopping

"experience", you can use a layered shopping bag and insert various items in it, making things stick out a little.

Each bag is fairly large so you have a lot of room to resize it as needed.

[Click HERE](#) to get two layered shopping bags for your next project.
