

Featured Resource – DealJumbo

Description

If you love collecting high-quality fonts, textures, and design elements to enhance your digital scrapbooking pages or handmade cards, you'll want to explore [DealJumbo](#). This site is full of creative resources—many free, many affordable, and all packed with design potential.

Let's take a look at the kinds of goodies you'll find.

Fonts

Fonts are one of the easiest ways to personalize a project. [DealJumbo](#) offers tons of font bundles, often featuring script, serif, and playful display styles that are perfect for:

- Layout titles
- Card greetings
- Word art or quotes
- Custom alpha sets

Once installed, fonts are available in your text tool like any others. You can mix fonts, apply shadows, or clip textures into the text for added flair. But remember that you can also use fonts without installing them, if you use a font viewer like [TheFontThing](#) or [NexusFont](#). This works well for **PaintShop Pro** and **Affinity Photo** too.

Some of the fonts have extra glyphs so you can create unique projects.

Textures & Backgrounds

From watercolor washes and grungy overlays to seamless paper textures, these assets are ideal for adding richness and dimension.

Use them for:

- Page backgrounds
- Paper mats or photo frames
- Clipping into shapes or text
- Layered overlays for a mood or theme

If you want to use a texture, simply open the file and add it as an overlay to your project. Then, use blend modes like **Multiply** or **Overlay** to create subtle effects. However, other designs can be used as is for backgrounds or combined with additional elements.

500⁺ **Free** Candy Patterns

Clipart & Illustrations

Many bundles come with hand-drawn illustrations, watercolor florals, seasonal elements, and decorative icons. These are perfect for:

- Decorative clusters
- Themed scrapbook kits
- Printable stickers or tags
- Card fronts or accents

Most cliparts come as PNGs with transparent backgrounds so it is easy to just add them to your project, resize, rotate, and layer them!

Brushes, Overlays & Other Goodies

Occasionally, **DealJumbo** bundles will include bonus elements like brushes, overlays, or shape packs. While the brushes are never in PSP format, many brushes are supplied in PNG format or ABR files. And you know that you can now import ABR brushes in PaintShop Pro. Furthermore, Affinity can also import those brushes.

Free or paid

After browsing through the site, you will surely have seen that you can get resources for free while others are not. Luckily, they are always affordable. I have downloaded several free fonts, text effects, cliparts, backgrounds, and more. The available deals are often updated so you need to keep an eye on their offers.

Terms of use

Luckily for any scrapbooker, designer, or card maker, all the resources available at DealJumbo can be used for personal and commercial projects. Of course, you cannot resell or redistribute their supplies, but you knew that already, right?

If you decide to purchase through my links, I may receive a small commission—thank you! It helps me continue to share helpful resources like this.
