

Scrapbooking Theme – Sewing

Description

Can you bring a sewing pattern into reality? Do you have a passion for textile transforming into clothes, home essentials, accessories, and the like?

You may be sewing as a hobby or as a career. You may have just sewn your first button or gone through thread like there's no tomorrow. For some, sewing is a form of therapy. For others, it's a career they enjoy.

Whatever your take may be, for sure, your sewing prowess deserves a page. Take inspiration from the following layouts.

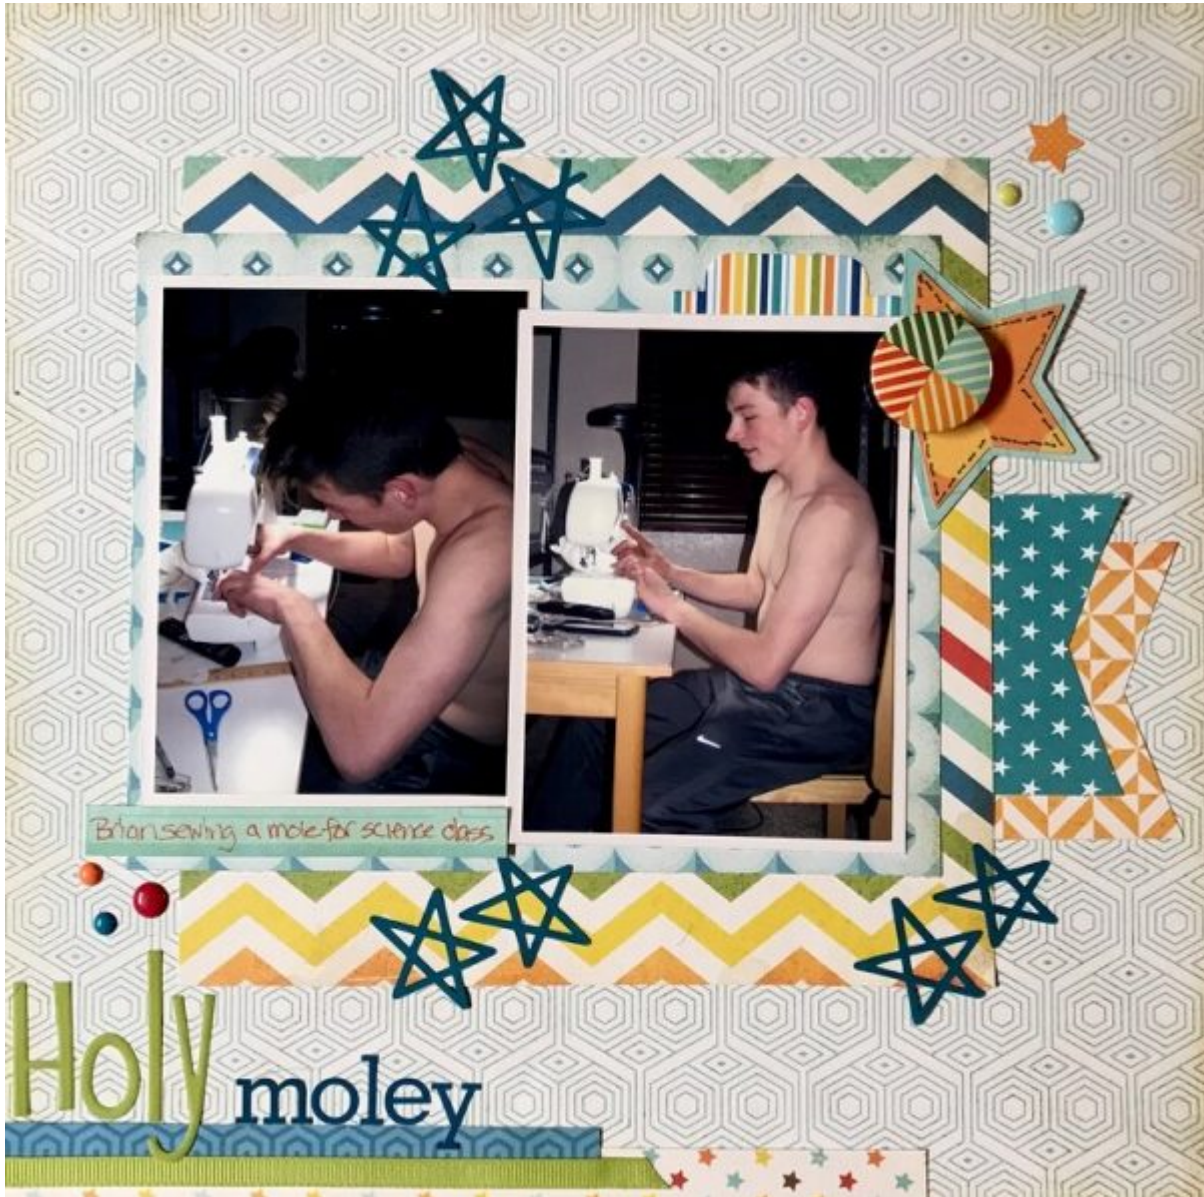

The Apprentice

We were all beginners once. When did you start sewing? Did you start young or are you a late bloomer?

For the most part, it doesn't matter when you did start sewing; what matters now is you love what you do and have learned from your mistakes. Yes, you do need to sew on the reverse side unless you want the stitches to show.

KEEP CALM AND MAKE PRETTY THINGS

Ellie wanted to do a sewing and crafting sleepover birthday party. She loves to sew, and she wanted to share this love with her friends. Our friend, Claire, had worked with Ellie a couple of times on sewing, and she was gracious enough to help us with the party. Ellie and I went to Joann's and picked out fabrics she thought her friends would like and they each made their own pillow. They all did a fabulous job and we took them home. Present at Ellie's party were Maggie, Sarah, and Mia. Maggie was a little bit of a challenge, but she couldn't make it. Ellie used some fun fabric to work with such as pandas because she loves pandas, monkeys with donuts because she loves monkeys and donuts, and then we also got a giraffe pattern and cupcake pattern.

The Right Equipment

Some say it's not the materials or equipment used that is important; talent and skill matter more! But hey, if you can have the best sewing machines, tools, and materials combined with great talent and skills, who are we to say nay?

Sewing Projects

Seasoned or not. First sewing project or the nth one. There's no shame in showing off your completed projects - and one of the best ways to do this is to create a page!

Sewing Elements

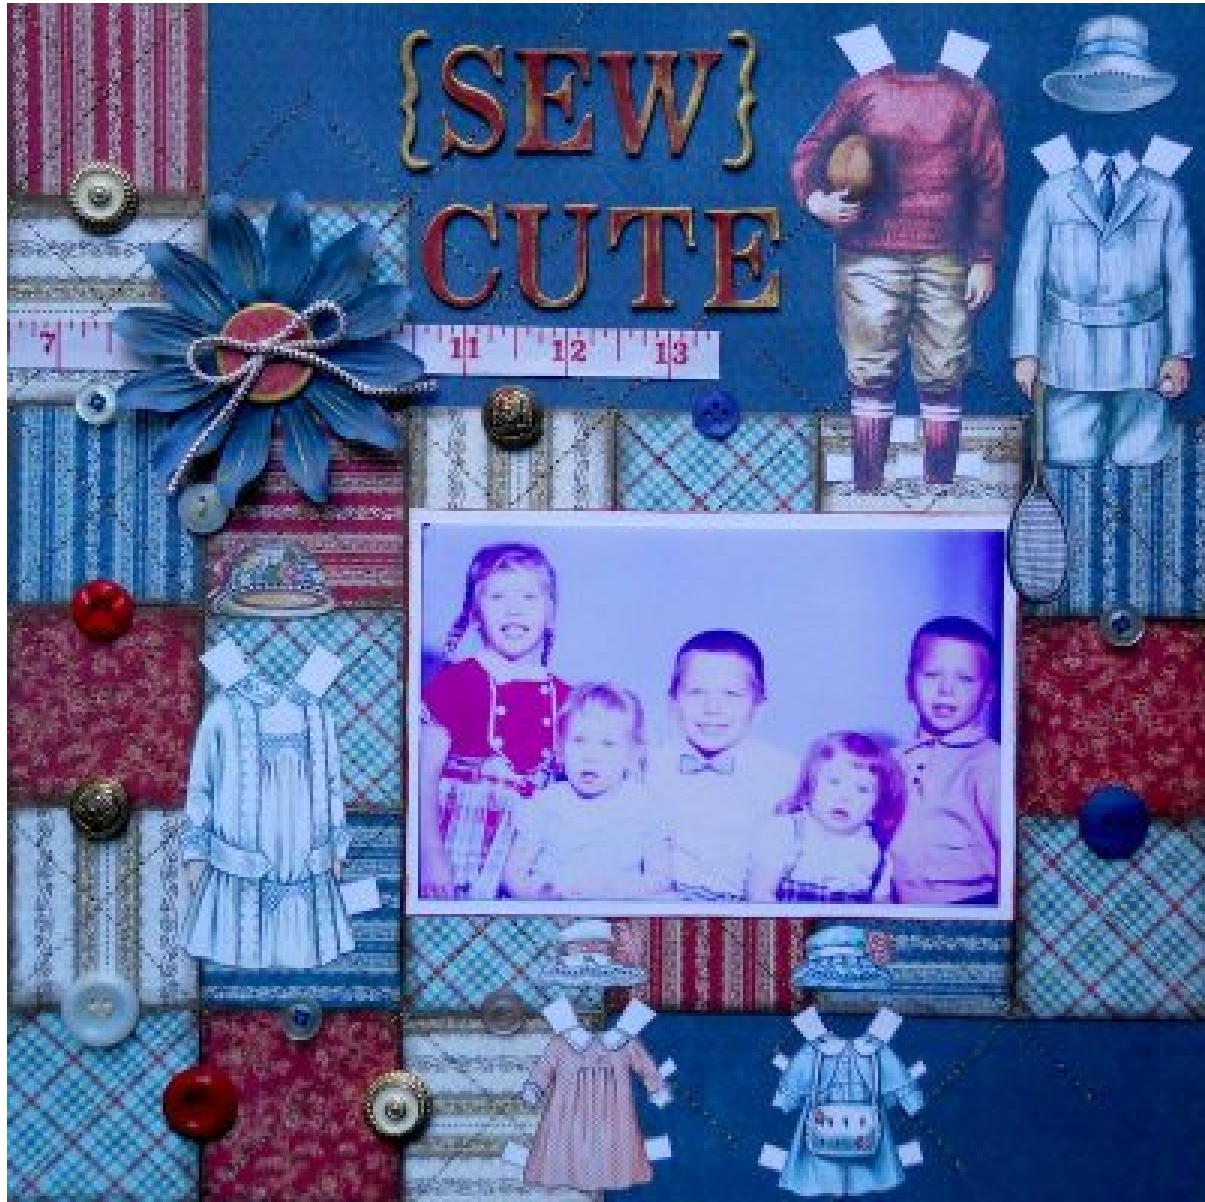

A pair of scissors, balls of threads, buttons, laces, ribbons, pins - stuff you see on a sewing kit. And also the perfect elements for any page, wouldn't you agree? The page itself may not exactly be about sewing but these elements are very versatile that you can just about use it for any theme.
